Miss Florence Marsh of Detroit is visiting in Ypsilanti.

Mrs. Arthur Woodard of Grand Rapids is visiting Mrs. Frank Oberst.

Prof, and Mrs. H. W. Miller of Detroit were in town yesterday. Miss Minnie Beal of Northville is the

guest of her brother, E. R. Beal. Miss Florence Egeler of Wayne is the

guest of Miss Belle Beardsley. The ladies of the First Baptist church will serve lunches on July 3 and 4 in the require great manual labor when made vacant store corner of Congress and Washington streets, formerly occupied by G.W.

> Rob Barbour, the irrepressible Normalite of '92, and for years superintendent of the Highland Park schools, attended commencement. He leaves soon to go into business in Houston, Tex.

Mrs. L. R. Skinner left yesterday for Boulder, Col. on her way to San Rafael,

California. Mr. and Mrs. G. C. Wheeler and children

of Kalamazoo spent Sunday with Ypsilanti relatives Mr. and Mrs. A. A. Lutz and daughter of

Jackson called on Mr. and Mrs. Charles F. Reinhart Tuesday on their way to Bothwell, Ont. Charles F. Reinhart and Master Karl

Reinhart spent Sunday and Monday at Portage Lake. Mrs. C. Killian and daughter, Mrs. Geo. Buddington of Detroit, were the guests of

Mr. and Mrs. Charles Reinhart Saturday. Miss Mamie Reinhart and J. Fred Reinhart visited Mr. and Mrs. Chas. Estleman

of Ann Arbor Sunday. At the Methodist church last evening an expression was called for from those present at the prayer meeting touching the return of Dr. Allen for another year. When a rising vote of those in favor of his return was called for the large audience rose en masse, while Dr. Allen, to whom the action was a complete surprise, was scarcely able to control his emotions as he feelingly thanked the brethren and sisters fo their love and loyalty. After the meeting closed the quarterly conference met and unanimously passed resolutions inviting Dr. Allen to remain their pastor, and requested the presiding elder to use all legitimate influences to prevent any change n their pastoral relations. Dr. Allen is greatly beloved by his church, and it would be a sore affliction to have him

taken from them. Rev. Dr. John R. Mitchel of Pontiac will preach in the Presbyterian church next Sunday morning and evening.

Miss Adella Jackson leaves soon to visit Mrs. Albert Leonard at Auburndale, Mass. She will take a summer course at Harvard and then travel in the St. Lawrence region. Miss Anna Olmsted will spend the ummer in Paris, and Dr. Alma Blount

will travel in Great Britain. Miss Grace Mansfield's recital in Detroit last Friday was highly praised by the De-

troit press music critics. Miss Mattie Martin has gone to Virginia

for the summer.

Miss Alma Tuttle is visiting relatives at Hornellsville, N. Y. The First Methodist Episcopal church

will have services next Sabbath at the usual hours. Preaching by the pastor, 10; morning class, 8:45; Sabbath school, 11:30: Junior League, 2:30; Intermediate League, 3; evening class, 5:45; Epworth League, 6;

Mrs. Emily Cook is holding a reunion with all her living sons and daughters this week. Those with her are Rev. Albert Cook and family, just returned from ten years' missionary service in India; Rev. Joseph Cook and family of Ithaca, Mich.; Dr. John Cook and family of Marion, O., Byron Cook and family and Mrs. Mary Cook Hohlfelder and children of Cleveland, O.; Mrs. Anna Cook and sons of Traverse City; Moreland Cook of Colfax, Wash.; Milton Cook and Mrs. Emily Cook

Prof. J. S. Lathers gave the commence

ment address at Wyandotte last evening. Oliver Harris, the 12-year-old pickanninny who has made the police so much trouble the past year, returned Tuesday from Chatham, Ont., where he skipped to avoid arrest, and was tried on a charge of stealing a watch, convicted and sentenced to the Boys' Industrial school till he is 18. Prof. E. A. Strong gave the address to the graduates of the Big Rapids high

Mrs. O. G. Larue and Mrs. C. E. Foote of Indianapolis, Ind., are visiting friends

school Monday night.

Miss Julia Ross has returned from Fort 4th July Rates-Lake Shore Ry.

What a Boy Can Do. boy can make the world more pure By kindly word and deed; As blossoms call for nature's light, So hearts love's sunshine need.

A boy can make the world more pure By lips kept ever clean; illence can influence shed as sure As speech oft more doth mean.

A boy can make the world more true By an exalted aim; Let one a given end pursue

Full simple things indeed, these three, Thus stated in my rhyme; fet what, dear lad, could greater be— What grander, more sublime?

The Glass Diving Bell. Let us suppose that your teacher of physics offers a prize to the member of the class who will show how a lump of sugar may be put under water without its getting wet. That seems to be a somewhat difficult problem, doesn't it? But it may easily be solved, and

here is the way. You know that if you put an empty glass tumbler down into a basin of water, the water will not rise in the umbler so high as it is in the basin, ecause the air in the tumbler preents it. Now that knowledge will nelp us to solve the teacher's problem. Get your mother to lend you a glass cheese cover and a wide-mouthed glass jar; say, an empty pickle jar. Stand the cheese cover upside down on the mouth of the jar, the knob of the cover going inside the jar; it will

thus stand firm. Now pour the cheese cover twothirds full of water, and on the water lay a round, flat cork of smaller diameter than the inside of the glass tumbler. Place a lump of sugar on the ork, and then very carefully put the tumbler mouth over the cork, holding the tumbler perfectly straight up and down, so as not to overturn the cork.

Press the tumbler down into the water slowly and gently, and you may finally let the rim rest on the bottom of the cheese cover, with the cork floating on the surface of the water in the tumbler. The lump of sugar thus lies on the cork above the water, and yet it is really below the level of the water in the cheese cover.

Before performing this feat in public it would be well to test the depth of the water in the cover. Two-thirds may be a little too much to pour in. What you want to be sure of is that there will be space enough above the

Water, But Not Wet. n the tumbler for the cork to

float free, with the sugar not quite touching the glass at the top. This may be determined by experiment.

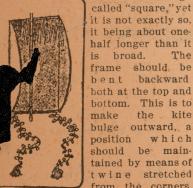

Reptiles That Walk Erect. Lizards of several sorts can walk and run easily on their hind legs. The Australian water lizard, which is three or four feet in length, keeps quite erect when traversing long distances on land. It is found in the neighborhood of river banks and passes much of its time in shallow water, says Pearson's Weekly.

The frilled lizard of Queensland also travels on its hind legs on level ground, keeping the frill folded while running. When attacked it expands this fold of skin, which stands out like a ruff at right angles round the down. neck, giving it a most formidable aspect, so that dogs that attack and kill larger lizards will often retreat before a frilled lizard at bay.

There is also a tree lizard in Australia that moves in a similar way. on short distances.

To Make a Square Kite.

One of the easiest to make, perhaps, is the square kite. The frame is composed of salit bamboo, and should be covered with tightly stretched Scotch cambric. Although

tained by means of twine stretched from the corners both above anrd below. The breast band should be attached in the usual manner, and the completed kite should have two tails instead of one, one at each lower corner.

Two Curious Tricks.

To light a candle without touching the wick, let a candle burn until it has a good long snuff, then blow it out with a sudden puff. A bright wreath of white smoke will curl up from the hot wick; now, if a flame is applied to this smoke, even at a distance of two or three inches from the candle, the flame will run down the smoke and kindle the wick. Don't have any draft or hanging doors.

The Magic Egg-Take some water and dissolve in it as much common salt as it will take up; with this brine down the side of

| fall. Put an egg into another glass of | the end of time and space, the becommon water it will sink to the bot- ginning of every end and the end of tom, but if it is put into the glass every race. containing the brine it will sink upon that portion which is saturated with salt.

A Four-Footed Mail-Carrier. A Kansas town boasts of a New be a mail-carrier. The station is only low) a short distance from the postoffice. The mail trains do not stop, but drop | Jonah obey the divine law? | Jonah the bags on the platform in passing. was a stranger and he took him in.

The mail clerk kicks the mail-bag out rings. of the car door and it falls somewhere in the vicinity of the freight house. The dog goes at once to the sack, and, that neither end will drag on the occurs about the first of May each office, where he deposits his trust in trees burst into bloom, and Europeans

The Dog and Adjective Game.

may readily be made a very helpful fill. one to those who desire—as who does not?-to increase their knowledge of words. It may be played without preparation, and will be played in that way perhaps, as a rule; but to make it give the best service in a teaching way, arrange if convenient, so that the players may know of it a day or so in advance. In that case they may have a chance to look over their text books, or the dictionary, to become familiar with as many adjectives as

The players seat themselves in two rows, facing each other, and the first Our dear little dog is active. Then the player opposite to him

must take up the phrase, and before the first player can count ten must substitute some other adjective beginning with "a" for "active;" thus, "our dear little dog is amiable." If he fails he drops out of the game; but if he gives a correct answer, he then counts ten while the second player on the other side is getting an answer ready.

Thus the phrase passes from one side to the other, until all the players to make a particularly strong stateon one side are out.

and learn how it can be done.

A. A. Boyce, a farmer living three and a half miles from Trenton, Mo., says: "A severe cold settled in my kidneys and developed so quickly that I was obliged to lay off work on account of the aching in my back and sides. For a time I was unable to walk at all, and every makeshift I tried and all the medicine I took had not the slightest effect. My back continued to grow weaker until I was unfit for anything. Mrs. Boyce noticed Doan's Kidney Pills advertised as a sure cure for just such conditions, and one day when in Trenton she brought a box home from Chas. A. Foster's drug store. I followed the directions carefully when taking them and I must say I was more than surprised and much more gratified to notice the backache disappearing gradually, until it finally stopped."

THE GOAT AND THE PLUG.

### Could Read.

Three colored men were discussing the intelligence of different animals. One claimed that the dog knew more than all other animals put together. The horse was favored by a second man, but old Peter Jackson said that, "in my opinion de goat am de 'telligentest criter livin'. I kin prove dat de goat kin read. I saw him do it, an' I know it am true. Several days ago, I wuz walkin' down street, dressed in mah best suit ob clothes, I got down on de main street I seed a billboa'd on which it said. "Chew Jackson's plug.' A goat wuz standin' about ten feet away he must hab recognized me, for de next thing I knew I went sailin' out in de mud. When I looked 'roun', dat goat wuz chewin' mah plug hat for all he wuz worth.

Had to Pay to Find Out.

At one of the New York theaters they are playing a piece called "A Fool and His Money." A preacher from Wisconsin was visiting Gotham last week and in passing the theater one evening was curious to know if the play conveyed the proverbial lesson suggested by its title. Stepping up to the box office, he inquired regarding the matter. "I think," said the suave party behind the grating, "that the moral of the piece is that the fool and his money gather no moss. It will cost you \$2 to find out exactly." The preacher murmured the story himself.

New Way to Do Time. Dr. Lillinksjold, of Butte, Mont., is

credited with having adapted hypnotism to a novel purpose. The doctor, having been placed under arrest, tried, fined and sentenced to gaol for twenty days for some small infracton of the law, deliberately hypnotized himself, saying he would awaken from his trance at the expiration of twenty days. All efforts to awaken him were unsuccessful till the end of that period. As a mean of "doing" time, or of rich—and so happy." whiling away long intervals, Dr. Lillinksjold's plan is probably unique.

would be no flirts.

bachelors.

William McCrow, former bartender for August Braun, was almost instantly killed by the latter at the Munith hotel, 14 miles southeast of Jackson, Saturday night. Thursday, McCrow, who was about 30 years old, came from Detroit after a spree, and finding that a man had been engaged in his

place was very angry.
Saturday, however, he slept at the hotel, and in the course of the night well diggers asleep in a room adjoining were awakened by the sound of smashing furniture in McCrow's room. Knowing that he had both a rifle and a shotgun, and fearing for their lives, they quickly left the hotel after calling Braun. The latter hastily dressed, and with his wife and baby fled to the home of Constable Freymuth, whom they were trying to arouse by rapping on the door when McCrow appeared on the scene.

"I am going to kill you," he shouted at Braun, "and kill your wife, too." Braun, without hesitating a moment swung an iron bar which he had picked up on the way and McCrow went down with the threat on his lips, dying a few minutes late.

Brann has not yet been placed in jail, the officials merely accepting his personal promise to be present at the nquest Wednesday. His offer to give bonds was refused. He will undoubtedly be exonerated.

The Law Defective.

What may prove a fatal defect has been discovered in the act amending the pure food laws, and it is possible the raise in salaries the bill was passed to permit, may not be had. The title says the act is to amend, among others, Section 2, while the body of the bill says it is Section 12. As the provision covered is that authorizing the auditor-general to raise \$25,000 annually for maintaining the department, it is thought the error invalidates the

Scattering Smallpox.

William Burkett, station agent for the Big Four at Summitville, Ind., came to Benton Harbor to visit his wife yesterday while suffering from a well-developed case of smallpox. His wife and family and several neighbors were exposed before they knew what it was. The disease had been nearly stamped out after many months. Burkett said that half the town of Summitville was broken out just as he was, but the people didn't know it was smallpox.

Gainesville, Ga. respectively, and \$5,-000 will follow at once. The Chester and South Jackson nines in Negaunee will resume operations as soon as men can be hired. For the past week the managers have been advertising for skilled miners, and alwasn't for the flirts there | though the highest wages are offered, no men can be found.

ground in good shape for spring work. excellent. Of the 165 varieties sown, all but 22 came through the winter. Of those that did not get through the larger part failed on account of poor seed as no stand was secured. nine varieties of rye sown gives promriety varies from the small space given a few grains to over twenty acres. best varieties in this section, and vafrom other countries where conditions are similar. It is the object to watch each variety carefully, with the hope of finding better yieldings, and more taken frequently regarding each variety. Some of them have already shown great promise. The Macaroni wheats are also receiving attention. Five varieties were sown on sod last spring, and in addition thirteen new varieties have been sown, covering an area of nearly 40 acres. Also 22 varieties of barley, and 18 varieties of oats have been sown this spring. This eration with the United States Department of Agriculture. Work in irrigation is also being begun in cooperation with the irrigation investigation. Large wells are being put down, and centrifugal pumps will be used to raise the water, which will be applied to various crops in comparison with the same crops not irrigated. Quite a number of varieties of corn will also be tried. These have been collected from Old Mexico and other places in the drier parts of the country. As a beginning in horticulture and forestry, 400 fruit trees, consisting of apples, peaches, plums and cherries, and 300 berries have been planted. One thousand forest trees have been set for shelter and shade. Four thousand small seedling cedars and pines are planted under a partial shade to give them as nearly as pospible natural conditions. After two years in the nursery they will be to beautify the twelve miles of timber that grows along the stream. The legislature last winter appropriated \$32,500 for equipment and maintenance for the next two years.-J. G. Haney, Fort Hays, Kans.

stalls where it had not been exposed

to the weather. These experiments teach lessons lands, or such as are deficient in nitrogen. It is evident that in soils having an abundance of available nitrogen and humus the application of barnyard manure would have little o no effect. For it is manifestly impossible to scientifically treat any soil without knowing its mechanica construction, its content of available plant food and its usual supply of humus and moisture.

In New Zealand the secretaries of the creameries have formed an organization and have held an institute. The U. S. Grant as a candidate for the suggestion contained in the formation same relative relation to the creameries that the secretaries do in New Zealand. It certainly would be a step in advance if the managers of creameries could get together once in awhile and hold an institute. It should result in a decided improve

One of Nature's Tricks.

It is well known that many insects bear a close resemblance to leaves, twigs and other things, and there i no doubt that this is for their pro tection against, or their concealment from, their enemies. One of the most peka and Kansas City, Kas., and remarkable cases of this kind was recently made known to the Entomo logical society of London. It is that of a spider that lives in the rocks near Cannes. A certain kind of moth in habits the rocks also and their case are to be found all about. It was no ficed that the spider, when at res looked exactly like one of the moth

MAJOR J. B. POND, whose death occurred a few days since, was probably acquainted with more notables than almost any other American. He was for many years general caterer to to the lecture and concert-going public, and as he watched and followed the changes in the public's demands, he became the medium through which the most popular speakers and musicians sought their introduction to American audiences. Major Pond may be said to have created his own career by promoting that of others.

REVELATIONS concerning the treatment of negroes practically slaves in Alabama show that the old south is only thinly disguised under the new, and that nothing except opportunity is wanting to a large element in several of the states to restore the old regime with all its barbarism. Will those who insist that the south must be left to deal with the race question as it deems best defend Alabama's method of handling it?

CORNELL UNIVERSITY has made such a botch of her forestry department that Governor Odell has vetoed the appropriation of \$10,000 for carrying on its work the coming year. Fire, flood and greed could not have worked more mischief. To clear 30,000 acres simply for the sake of plant ing them over again seems about as far from the highest ideal of forestry as it is from a profitable business administration,

ALMOST any kind and amount of trou ble may be expected at any moment in Servia. The new crown already promises to be outfitted with the requisite amount of uneasiness. Hamlet's uncle was no more uncomfortable in the possession of "those effects for which he did the murder" than will King Peter find himself in confronting the moral sense of Europe.

Boston is said to be sinking into the sea at the rate of one foot in a hundred years. What delightful things the Autocrat would have said about it had the announcement been made in his day! As it is, the learned city may comfort itself wi h the reflection that New York is not sub stantial enough to sink by its own weight.

THE Taft commission has made a pretty good beginning at a new order of legislation. Under the new opium regulation, an American or a Filipino may not pur chase the drug for his own use, but a fullblooded adult Chinaman may buy all he has money to pay for. If that isn't class legislation, what is?

THE New York, New Haven and Hartford railroad has made a first-class bid for the patronage of bridal parties. It forbids rice throwing at the stations, and will have the throwers arrested if they persist in violating regulations. Kisses may be thrown, as they do not bit anybody.

THE proposition to try the experiment of special steel roads for automobiles on Long Island will commend itself, not only ufacturers, who want a market for their goods, and to the public, which is anxious for its own safety.

VIRGINIA and Uncle Sam have had trouble before, and the state got the worst of it. It looks now as if Uncle Sam would have his way, but would have to foot the bills. He may conclude to build his ships hereafter, outside Virginia's jurisdiction.

Toledo has been noted for a good many things, but nobody supposed that the Maumee concealed more wealth than the sands of Nome. A river paved with \$150,000 worth of lumber is something to brag

SOMEBODY says the Kentucky murderers, Jett and White, will get their deserts quickest by being turned loose. But how about the rest of the community, and how long will it take to finish the Kilkenny-cat

By confining its attention to its own black sheep, the administration will simplify the postoffice imbroglio considerably. Let the party at large take care of

IT is recommended to blot out Breathitt county. Breathitt county has been trying to blot itself out, only she has been too slow about it. That's what all the fuss is

THE Sun's general utility poet inquires, "Oh, where's the good old summer time?" Perhaps it has gone south to get warm; nothing has been seen this way.

np back straight, neither will it make and heals diseased bone and is among neans of recovery in

Last Meeting Before Vacation. Next Sunday the Ypsilanti Men's class will hold its final meeting before adjournment until the first Sunday in September.

Sometime ago the class was addressed by Prof. Jones of the University of Michigan on "Ways of Benefitting Our Community" from the standpoint of a civic improvement association. At that meeting it was decided to be desirable that a similar association be organized in Ypsilanti. and a committee was provided to report later. That committee will make a brief report Sunday, recommending the formation of such an organization, and Prof. G. T. Burns of the University of Michigan and secretary of the Ann Arbor Improve-

ment association will address the meeting. By motion of the class last Sunday, it was decided to invite the ladies of the city to be present at this meeting and participate in the organization of the association. Such organizations as the Ladies' Literary club and the Woman's Study club have in other cities interested themselves in this subject and done much to encourage it.

this meeting. The time of the meeting is 11:30, standard, in the main auditorium of the Presbyterian church. You and every other citizen of our city is cordially invited to be present and to participate in this commendable movement.

Hundreds of lives saved every year by having Dr. Thomas' Eclectric Oil in the house just when it is needed. Cures croup, heals burns, cuts, wounds of any sort.

The Training School.

To Parents-During the summer session of the State Normal college, July 7 to August 14, the training school will be open for work from kindergarten to the seventh grade, inclusive.

There will be but one session, from 8:30 to 11:30. The work of instruction during this time will be entirely in the hands of the regular critic teachers. The purpose is to make the instruction as nearly as possible that of a model school. The subjects which will receive special attention are nature study, manual training and such as emphasize the culture side of education. No preparation will be expected of the pupils outside of school hours. It is believed that the work will not be burdensome to any one, and that it will be of especial value to all who desire to review the work of a grade, to those who have necessarily been absent during a part of the regular school year, to such as need to strengthen themselves on any subject in a given grade, and to those who desire to do something which will apply upon a new

Application for admission may be made on or before the date of opening at the office of the training school.

Energy all gone? Headache? Stomach out of order? Simply a case of torpid liver. Burdock Blood Bitters will make a new man or woman of you.

The Living Age. The Living Age for June 6 is especially rich in timely articles. Under the title "A Passionate Pilgrim" appears a sketch of the automobilists, but to the steel man- that unhappy Julie de Lespinasse, who suggested to Mrs. Ward the heroine of "Lady Rose's Daughter." One of his former pupils gives reminiscences of "Dean Farrar as Headmaster," and a brilliant writer who signs himself "A Retired Politician" comments on "The Decay of

Authority," political, social and critical. The Living Age adds another to its notable series on European politics by reprinting, in the number for June 13, the striking article from the last Quarterly Review, entitled "The Macedonian Maze." The writer is outspoken in his criticism of the methods of the Macedonian Revolutionary Committee.

The carefully prepared article on the ate Archbishop Temple which has just appeared in the Church Quarterly Review, will interest many American readers. The Living Age for June 20 reproduces it.

Charles Hanbury Williams, whose travel sketches from the Dominion have been so rivacious, now sums up the result of his observations in an article in more serious vein: "The American Invasion of Northwestern Canada." It will be found in the Living Age for June 20.

A Frightened Horse,

Running like mad down the street, dumping the occupants, or a hundred other accidents, are everyday occurrences. It be-hooves everybody to have a reliable salve handy, and there's none as good as Bucklen's Arnica Salve. A woman worn-out, who never has to lift a hand for herself, who does not know the meaning of the word "worry" How can it be possible? That it is possible is proved by the experience of many a woman who, because of sleeplessness, nervousness, backache and other womanly ills, becomes an utter physical

Dr. Pierce's Favorite Prescription gives new life and new strength to weak, wornout, run-down women. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I suffered for five years with inflammation rhich caused violent pain and often torture so ad at times that I could not be about to attend my daily duties," writes Mrs. Julius C. Bell, Bathroad, Kingston, Ont. "Life was simply isery to me and I did not know which way to rn for relief. Had tried doctors but found they did not help me. My druggist advised me try Dr. Pierce's Favorite Prescription—eulozing it in glowing terms. I decided to give it It is hoped our city may have their co-operation as well, and that they will attend they did not help me. My druggst advised me to try Dr. Pierce's Favorite Prescription—eulogizing it in glowing terms. I decided to give it a trial and brought a bottle home. I am happy to say that after the use of the first bottle I felt so much improved I decided to take another and after that a third bottle. I have good reasons to be pleased, for I am to-day a well woman, work is easy and the world looks bright. I have perfect health, thanks to your medicine."

Sick women are invited to consult Dr. Pierce by letter, free. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women. Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" when-

Crocodiles In Water. The crocodiles are thoroughly aquatic in their habits, and their peculiar conformation enables them to attack and seize their prey unawares. Their nostrils, which lead by a long canal to the back part of their throats, their eyes and their ears are placed on the upper part of the head, so that when in the water they can breathe, see and hear, while they are themselves practically invisible. When they dive, their nostrils and ears are closed by lids or valves, and their eyes are covered by a transparent nictitating membrane. They are further furnished with an arrange ment which prevents the water from getting down their own throats when they are holding large animals under the water to drown them.

The dentition of these reptiles is peculiar. The teeth are sharp and conical and are hollow at the base, and each tooth serves as the sheath of another, which will in time replace it. The tongue-for notwithstanding the ancient belief the crocodile does possess a tongue—is fleshy and is attached to the bottom of the mouth. And finally the lower jaw is hinged at the very back of the skull, thus giving the animal its extraordinary gape and also the peculiar appearance which caused the notion that it moved its upper jaw.

Curious Fire Alarms. In St. Petersburg the arrangement of fire alarms is rather peculiar and decidedly unique, and the fire alarm telegraph is an unknown thing. Instead a fireman is at all times in the tower of the city hall, and he watches the sursounding city to catch the first glimpse of a fire. When a fire is discovered during the day, he runs up black balls on the top of the tower as signals; at night red lanterns are used. The number of the balls or lanterns shows the district or ward in which the fire is located, says a writer on "Foreign Fire Fighters" in Cosmopolitan. As soon as the signal is seen by the man on duty at the engine house he rings a bell outside, which calls together the members of the company, who may be scattered over a couple of blocks. This method is not conducive to quick time in reaching the scene, and from twenty minutes to half an hour is good work unless the fire happens to be near an

Changed His Mind.

Jinks, like other men, has a horror of infant prodigies as exploited by their proud papas. Recently Binks met

the handsomest man I know.' Haw, haw, haw! How's that for precocity, And Jinks replied: "Binks, I'm a little early for my engagement. That youngster certainly is a bright one. Come into this toy store and help me se-

lect a few things that will please a girl of her taste, and I'll send them to her. M you don't mind."-New York Times.

Good Paste.

Not every man can make a good flour paste that can be preserved without decay or mold. When such a paste is needed, try the following: Mix good clean flour with cold water into a thick paste and continue mixing until the flour and water are well blended. Now add boiling water and stir until it is thin enough to spread with a brush. Add to this a spoonful or two of brown sugar, a little corrosive sublimate and a few drops of oil of lavender and you will have a paste that will hold with wonderful tenacity.

In Holland.

Many of the country dames and damsels in Holland look as if they had been brought up on soap and water. Their faces glisten so preternaturally, their pots and pans, the red tiles of their floors, their tables and benches all bear witness so unmistakably to their cleansing ardor. I suppose a fly in the butter they were churning or a mired foot on the boards they have but just scrubbed would be as nearly likely to give them a fit as anything could be.-Chambers'

The Michigan Central will, daily until September 30, sell tickets from Ypsilanti to western resorts in Wisconsin, Minne sota, New Mexico, Texas, Colorado and the Dakotas and return at reduced rates. October 31, 1903. F. L. EATON. Ticket Agent.

Eyeless Fish In Boiling Water. One of the most remarkable discoveres in the shape of a peculiar species of fish ever made on this continent was that made at Carson City, Nev., in 1876. At that time both the Hale and Norcross and the Savage mines were down to what is known as the "2,200 foot level." When at that depth, a subterranean lake of boiling water was tapped. This accident flooded both nines to a depth of 400 feet. After this water had all been pumped out except that which had gathered in basins and in the inaccessible portions of the works, and when the water still had a temperature of 128 degrees-nearly scalding hot-many queer looking little blood red fish were taken out. In appearance they somewhat resembled the

They seemed lively and sportive enough when they were in their native element-boiling water-notwithstanding the fact that they did not even have rudimentary eyes. When the fish were taken out of the hot water and put into buckets of cold water for the purpose of being transported to the surface, they died as quickly as a perch or a bass would if plunged into a kettle of water that was scalding hot: not only this, but the skin peeled off exactly as if it had been boiled.

Eyeless fish are common enough in all subterranean lakes and rivers, but this is the only case on record of living fish being found in boiling water.

Passing a Plate In a Church. There was a very large congregation, and the rector seeing that there was only one alms dish made signs to a rustic from the chancel entrance to come to him and bade him go into the rec tory garden through a glass door into the dining room, where there had been a slight refection before the service, bring a dish from the table, take it down one side of the north aisle and up the other and then bring it to the clergyman at the place from which he started. The rustic disappeared, reappeared with the dish, took it as he was ordered and presented it to the people on either side of the aisle, and then approaching the rector whispered in his ear: "I've done as yer told me, sir. I've taken it down you side of the aisle and up t'other--they'll none of 'em 'ave any." No order had been given to empty the dish, and it was full of biscuits!-Dean Hole's "Memories."

Shellac In Chinese Works of Art. By softening shellac with heat it may be drawn out and twisted into almost white sticks and of a fine silky luster. Extreme beauty is given to Chinese works of art by the use of shellac. Some of them are very ancient and of great value. They are chiefly chowchow boxes, tea basins or other small objects made of wood or metal They are covered with a coat of shellac, colored with vermilion, and while the layer of shellac is soft and pliable it is molded and shaped into beautiful patterns. Some of these works thus ornamented are so rare and beautiful that even in China they cost fabulous

He Forgave the Bishop. A certain bishop, an ardent advocate

of teetotalism, found one of his flock, to whom he had preached for years, leaning in helpless drunkenness against a wall. "Wilkins!" cried the bishop, inex-

pressibly shocked. "Oh, Wilkins! You in this state! I am sorry; I am sorry; I am sorry!"

As the bishop was passing by on the other side Wilkins pulled himself together and hiccoughed after him:

"Bishop, bishop!" The bishop hastened back in the hope of hearing a resolution of repentance. "Bishop, if you are really sorry I forgive you!"

A Bird Much Like a Fish. The "birds of a feather" that "flock together" do not belong to the penguin family, as they are entirely destitute of feathers, having for a covering a kind of stiff down. Another penguin peculharity is that it swims not on, but under, water, never keeping more than its head out and when fishing coming to the surface at such brief and rare in-

would almost certainly mistake it for a

tervals that an ordinary observer

Discouraging. "My dear sir." wrote the editor to the persistent young author. "in order to simplify matters somewhat we are inclosing a bunch of our 'declined with thanks' notices. If you will put one of these in an envelope with your manuscript and mail it to yourself, it will make it easier for all of us, and you will be saving something in postage as well."-Chicago Post.

There are some goldfish in Washington which belonged to the same family for the last fifty years, and they seem no bigger and no less vivacious today than they did when they first came into the owner's possession. A few of the fish in the Royal aquarium in St. Petersburg are known to be 150 years

Depressing. "Were there laughter and cheers during your speech?"

'Well," answered the youthful states man, "there weren't many cheers, but now and then people in the audience looked at one another and laughed."-Washington Star.

A Case of Necessity. Mrs. Smith-We missed you so much

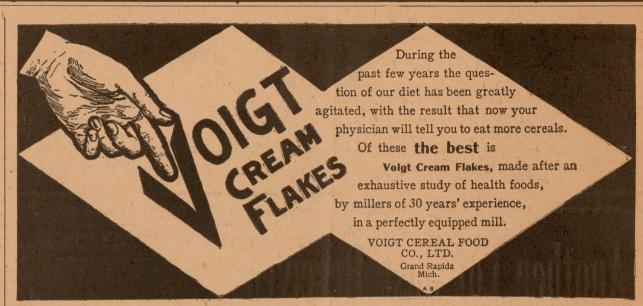

at our party! Mrs. Jones-And I was so vexed when I couldn't come! You see, our cook had company unexpectedly, and she needed us to fill out the card tables.-Detroit Journal.

The eyes of other people are the eyes that ruin us .- Franklin.

Ten Years in Bed.

R. A. Gray, J. P., Oakville, Ind., writes: For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time consulted the very best medical skill available, but could get no relief until Fo ley's Kidney Cure was recommended to It has been a Godsend to me." Equal Not a Single Fact--Ypsilanti Endorsement Makes

This Claim a Fact. Endorsed by scores of Ypsilanti citizens, who cheerfully make a public statement of their experience, is the proof we have to back our claims that Doan's Kidney Pills cure every form of kidney ills, from a common backache to serious urinary disorders. Here is one local example. We have many

Mrs. A. Morris of 15 South Grove street says: "I am willing, very willing, to lend any aid in my power to induce sufferers from backache or kidney trouble to give Doan's Kidney Pills a trial. My condition before getting Doan's Kidney Pills at Weinman & Matthews' drug store was a constant soreness across my back, and when stooping or exerting myself the pain became very sharp. If I took a cold it always settled in my kidneys, and it was accompanled by too frequent action of the kidney secretions. I could notice a marked improvement in a very short time. I contin ued the treatment until I had used two boxes. I have not felt the pain in my back to amount to anything since, and the kidney secretions are normal in action. I emphatically declare Doan's Kidney Pills to

Sold for 50 cents per box by all dealers. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

The Duke of Norfolk, though a rich man, dresses rather like a prosperous farmer and has a beard of considersistem length, which he has trimmed, it is said, whenever he happens to think M having that operation performed.

Fight Will Be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consump tion will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R Beall of Beall, Miss, has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's NewDiscovery after everything else had failed. Improvement came at once, and four bottles entirely cured her." Guaranteed by Smith Bros., Rogers-Weinmann-Matthews Co. Price 50c and \$1. Trial bottles free.

Win hearts, and you have all men's hands and purses.—Burleigh.

Interesting to Asthma Sufferers. Daniel Bante of Otterville, Ia., writes 'I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar, which gave me immediate relief, and I will never be without it in my house. I sincerely recommend it to all." Sold by

From labor, health; from health, contentment springs.—Beattle.

New Kind of Life Insurance. For twenty-five cents you can insure yourself and family against any serious results from an attack of bowel complaint during the summer months. That is the price of a bottle of Chamberlain's Uholera and Diarrhoe Remedy, a medicine that can always be depended upon even in the most severe and dangerous cases. It is equally valuable for children and adults. When reduced with water and sweetened it is pleasant to take. This remedy has relieved more pain and suffering and saved the lives of more people than any other medicine in the world. It is almost sure to be needed before the summer is over. Buy it now. For sale by Frank Smith.

Sympathy with nature is a part of the good man's religion.—F. H. Hedge.

Was Wasting Away.

The following letter from Robert B. Watts of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost fiesh and never feit well and doctored with leading physicians and tried all appropriate and respective." physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure, and less than two bottles completely cured me and I am now sound and well." Sold by Frank Smith.

No man was ever so much deceived by another as by himself.—Greville.

The June sun shines on many a fair bride, made doubly lovely by the use of Rocky Mountain Tea. The bride's best 35 cents. Smith Bros.

The public man needs but one patronnamely, the lucky moment.—Bulwer.

Revolution Imminent. A sure sign of approaching revolt and serious trouble in your system is nervousness, sleeplessness, or stomach upsets. Electric Bitters will quickly dismember the troublesome causes. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, and clarify the blood. Run down systems benefit particularly, and all the usual attending aches vanish under its searching and thorough effectiveness. Electric Bitters is only 50c, and that is returned if it don't give perfect satisfaction. Guaranteed by Smith Bros., Rogers-Weinmann-MatthewsCo, druggists

There is no index of character as sure as the voice.—Disraeli.

Delicacy is to the mind what fragrance is to the fruit,—A. Poincelot.

Go Prepared In preparing for your summer outing a little forethought may save you no end of trouble. Mr. John H. Manly, a dry goods merchant of Bellville, R. I., while packing an outfit for camping a few weeks on Narragansett Bay, put in a bottle of Chamber-lain's Colic, Cholera and Diarrhoea Remedy for emergency use. The second day in camp his little boy was taken with cramp colic. The first dose of this remedy gave relief and the second dose effected a cure. Think of the pain and suffering this boy would have had to endure without this remedy at hand to relieve him. Such cases often result fatally. For sale by Frank Warning.

If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you you will have only yourself to blame for results, as it positively cures all forms of posed, fight the good fight. kidney and bladder diseases. Sold by

will be held as follows: For second and third grade certificates, third Thursday of October and June. For all grades, second Thursday of March

and August. C. E. FOSTER, Comr.

LESSON XIII, SECOND QUARTER, INTER-NATIONAL SERIES, JUNE 28.

Text of the Lesson, a Comprehensive Quarterly Review - Golden Text, II Tim. iv, 18-Commentary Prepared by Rev. D. M. Stearns.

Copyright, 1903, by American Press Association.] LESSON I .- Paul's farewell to Ephesus (Acts xx, 28-38.) Golden Text, Acts xx, 35, "Remember the words of the Lord Jesus, how He said, It is more blessed to give than to receive." In this farewell address he emphasizes the supremacy of the Holy Spirit in all church affairs, that all believers constitute the church of God purchased with His blood, that God only by His word is able to build up and establish His redeemed and that with the earnestness that Paul himself manifested we are to seek not only our own up building, but that of all others with

watchfulness and prayer. LESSON II.—The Resurrection (I Cor. xv, 20, 21, 50-58). Golden Text, I Cor. xv, 20, "Now is Christ risen from the dead and become the first fruits of them that slept." Not merely a good man and a great teacher, who died at the hands of cruel men, but an absolutely perfect man, who, having no sin of his own, became a substitute for be up to the representations made for all sinners, having the sins of the world laid upon Him, died, the just for the unjust, bearing our sins in His own oody, and rose again from the dead, o be the Saviour of all who will acept Him and the judge of all mankind this is the Christ whom we receive nd preach.

LESSON III .- The law of love (Rom. viii, 7-14). Golden Text, Rom. xiii, 10, Love worketh no ill to his neighbor; therefore love is the fulfilling of the The redeemed of the Lord are expected to magnify Him in their bodies by manifesting His life in them (Phil. i, 20; II Cor. iv, 10, 11) and as His love was manifested in laying down His life for us, so we are to lay down our lives for others (I John iii, 16); not simply working no ill, but working positive good, manifesting Christ, the Saviour of sinners.

LESSON IV .- Paul's journey to Jerusalem (Acfs xxi, 3-12). Golden Text, Acts xxi, 14, "The will of the Lord be Paul is on his way to Jerusalem, ready to be bound as a prisoner if it please God, or even to die for the name of the Lord Jesus, therefore he cannot be persuaded to stop or turn back, though twice on the journey he is warned that trouble awaits him and is forbidden by the Spirit to go on.

LESSON V.-Paul arrested (Acts xxi, 30-39). Golden Text, I Pet. iv, 16, "If any man suffer as a Christian, let him not be ashamed." He was welcomed by the brethren at Jerusalem, and he declared to them the things that God had wrought through him (verses 17, 19). At the suggestion of the brethren he did what they hoped might appease the Jews, who were zealous of the law, but it was of no avail, and they would have killed him if the chief captain

had not rescued him from them. LESSON VI.—The plot against Paul (Acts xxiii, 12-22). Golden Text, Acts xxiii, 11, "The Lord stood by him and said, Be of good cheer." - Chapter xxii gives his speech in Hebrew from the stairs to the people, which caused such an outburst of anger that the captain, not understanding Hebrew, was about to examine Paul by scourging when he was startled by Paul's assertion that

he was a Roman citizen. LESSON VII.—Paul before Felix (Acts xxiv, 10-16, 24-26). Golden Text, Ps. xxiii, 4, "I will fear no evil, for Thou art with me." While a prisoner at Cæsarea Paul not only testified before Felix, the governor, in the presence of his enemies, who came up from Jerusalem to witness against him and seek his death, but Felix often sent for him

and communed with him (verse 26). LESSON VIII.—Paul before Agrippa (Acts xxvi, 19-29). Golden Text, Acts xxvi, 22, "Having therefore obtained help of God, I continue unto this day." Festus having succeeded Felix after two years finds Paul still a prisoner, and again the Jews from Jerusalem testify against him.

LESSON IX.—The life giving Spirit (Rom. viii, 1-14). Golden Text, Rom. viii, 14, "For as many as are led by the spirit of God they are the sons of God." In the Acts we have but brief accounts of Paul's discourses, but in his epistles we learn fully all he taught and that he insisted on the sinfulness and utter helplessness of man by nature, but that without works, through Christ's work, any sinner receiving Him becomes righteous before God and indwelt by the Spirit, who will control the whole being if allowed to do so.

LESSON X .- Paul's voyage and shipwreck (Acts xxvii, 33-44). Golden Text, Ps. cvii, 28, "Then they cry unto the Lord in their trouble, and He bringeth them out of their distresses." From the day that the Lord Jesus appeared to Saul on the way to Damascus He is to him the greatest of all realities, He s ever before him, and again and again He appears to him or sends him a special message by an angel.

LESSON XI.—Paul at Rome (Acts xxviii, 16-24, 30, 31). Golden Text, Rom. I, 16, "I am not ashamed of the gospel of Christ." This man knew nothing but Christ, and Him crucified and risen and ascended and returning to establish His kingdom with Israel as the earthly center, but his special mission was to preach the gospel to the Jews and gentiles to complete the mystery, the elect church, the body of Christ.

LESSON XII.—Paul's charge to Timothy (II Tim. iii, 14, to iv, 8). Golden Text, II Tim. iv, 8, "There is laid up for me a crown of righteousness." As we part with Paul for the present we hear him say: Preach the word, for the Spirit wrote it all, and it is all profitable; remember the judgment and the judge, and however you may be op-

Whooping Cough Epidemic.

Last winter there was a very severe epidemic of whooping cough at Poolesville, Md. Chamberlain's Cough Remedy was used almost exclusively and with perfect success. Mrs. C. F. Hadley's three boys all had the disease and she believes this remedy saved their lives. For sale by Smith bros, City Drug Store.

FOLEY'S HONEYAND TAR

NEIGHBORHOOD BUDGET.

Sam Davis, a Reading angler, returned the other day from a disheartening expedition in which he experienced the proveroial "fisherman's luck," He leaned pole and line against the house, too disgustgusted to remove the minnow bait from the hook, while he sought the sympathy of his better half. Sam was relating his hard luck when he glanced through the doorway and saw the bob go down for the first time that day, and rushing out he saw the family mouser performing some astonishing aerial gyrations. For several minutes that was the busiest cat ever heard of, and after all the women in the neighborhood had gathered at the scene, pussy was finally unhooked.—Hillsdale Demo-

No need to fear sudden attacks of cholera infantum, dysentery, diarrhea or summer complaint if you have Dr. Fowler's Extract of Wild Strawberry in the medi-

William A. Boland of Grass Lake was n Ann Arbor Friday. He says that work on the Jackson and Battle Creek road will be finished within two weeks, after which the whole force will be transferred the road from Grass Lake to Ann Arbor. This will be good news to those who have had their faith in Mr. Boland. He is one of the most energetic men in the country, and is bound to complete the road and make it a success.—Dexter Leader.

Register of Deeds Huston says that there are nearer 10,000 than 5000 papers in his office that have never been called for by the people who left them there for record. There are still many government patents for lands that have never been recorded. Every one who wants a clear title to his lands should see that his patent is on

During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by Frank Smith,

The Washtenaw Farmers' Mutual has had a few small losses from lightning recently. Walter H. Dancer had a cow killed in Lima May 16. The same day Willard Nelson of Northfield had a hog killed in the same way, while Milo U. Updike of Chelsea had his barn in Sharon struck, inflicting slight damages.—Dexter Leader.

The pet terrier, who objects to wearing is muzzle, is provided with a comfortable in the hall hereafter. bed, but at night, after all is quiet, he has been in the habit of going to the spare bed, much to the disgust of the owner. Punishment did not keep him off, but lately his mistress placed his muzzle there, the sight of which keeps him from bed or cushions.—Hillsdale Leader.

Are you thin? Would you like to get fat and plump? Tried "laughing," 'twould not work—now take Rocky Mountain Tea—'twill do the business. 35c. Smith Bros.

Williard F. Day, ex-register of deeds of Hillsdale county, died last week at his home in Hudson. Mr. Day was one of the early pioneers of the county, and resided in Pittsford most of his life.

A Hudson man recently dug up an old railroad check that was probably lost about 1860. The check is No. 192, and reads "Pittsford to Baileytown." The latter place long ago was a portion of the city of Chicago.—Hillsdale Leader.

The village president and marshal of Jonesville have given official notice that owing to the dangerous nature of wounds resulting from toy pistols, the law prohibiting their sale to and use by minors will e strictly enforced.

Scald head is an eczema of the scalpery severe sometimes, but it can be cured. Doan's Ointment, quick and permanent in its results. At any drug store, 50 cents.

The children of Richard Smith, a mile west of Hudson, were picking strawberries the other day along the railroad track and in crossing the cattle guards one of the little girls got both feet securely fastened. The fast mail was due and could be heard whistling a few miles away. The little sissisters were frantic with fear, but had the presence of mind to run and summon a man, who unlaced the little one's shoes and released her but a few seconds before the train thundered past,—Hillsdale Dem-

Chronic bronchial troubles and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. Sold by Frank Smith.

Daniel L. DeVee of London died June , aged 86 years.

Fay Bunting, 16 years of age, whose right hand was shattered and both eyes shot out by the accidental discharge of a shotgun on the 4th inst, is reported by his father, David Bunting, as fast recovering. The wounded hand will be entirely healed in a fortnight more, and amputation has fortunately been avoided. The boy says that he is able to discern a faint ray of light with the left eye, but the vision of the other eye is entirely destroyed.—Hilsdale Democrat.

You feel mean, cross, ugly, down in the mouth, nothing goes right. Bad liver. Better take Rocky Mountain Tea. Drives away the blues. 35c. Smith Bros.

WILLIS.

Eugene Breining died last week of appendicitis, aged 12 years. His life thus far had been in harmony with highest aims. It had been his study to improve his mind. His one desire seemed to center in the improvement of his faculties. He was beloved by his associates, who came in throngs to take part in the last sad rites, a solemn occasion marked by deep sympathy. The funeral was held at the Friends' church Wednesday, conducted by Rev. Howard Moore. Young in years, he passed into other scenes.

An endless life is his, An endless work before him lies. The mystery of death proclaims That he is free from care. That highest good and holiest aims

Await him there. John Bunton was in Detroit Saturday. Charles Thompson has put up a \$100

windmill. Mrs. D. W. Potter and daughter Mary go to Bay City this week to attend the wed

ding of a nephew. Mr. Van Kleek reports a demand for seed beans, as many are replanting. Poor

seed is dear at any price. The crows and blackbirds are helping

themselves to corn as it comes up. "Two for the blackbird, two for the crow, two for the cut worm and four to grow," but they do not leave the four.

We told a tale of sorrow To the winds that were passing by, And we listened, intent on their meaning,

And we seemed to heave a sigh. It came from the soul of the whistling winds

As they were passing by

No good health unless the kidneys are sound. Foley's Kidney Cure makes the kidneys right. Soli by Frank Smith. j

Mark Rust, who has attended the Ypsilanti high school for the past year, is at home at present. Also Ruth Edwards and Jessie Phelps. Mrs. Bowen and her daughter Grace of

Monroe, who have been visiting Le Roy Butts, returned to their home this week. Crows are so numerous this year that the farmers find it difficult to get their corn started. Oats are looking fine, a few pieces of wheat are fair, early potatoes are excellent, and meadows are looking well.

Mrs. Farrington and daughter of Ypsilanti are spending a few days with the former's brother, J. H. Bird.

Died, June 15, of appendicitis, Eugene, son of Joseph and Mary Breining, aged 12

George Towler works in the coal docks James Potter has typhoid fever. Mel Carter and Mary Kirchen were mar-

ried at Ann Arbor June 19. On the first indication of kidney trouble, stop it by taking Foley's Kidney Cure. Sold by Frank Smith.

STONY CREEK. Prof. McGee and family of Hudson are of Watson Barr's.

Miss Emma Barr of Manistee is home or her summer vacation. Mr. and Mrs. Alfred Davis of Dexter are

risiting at this place. Mrs. Emma Widdecomb and Miss Gene vieve Alcott returned to Detroit Saturday. Rev. and Mrs. Howard Moore and family returned Monday from visiting her

brother at Carlton. There were about 300 present at the Grange Children's Day Saturday. They voted to always hold their Children's Day

Children's Day passed off pleasantly at the Presbyterian church Sunday morning with a full house. Mr. Kellogg, a Normal graduate, gave an interesting address.

Miss Anna Campbell is home from Oli-

Orin Seaver is on the sick list.

PITTSFIELD. Mrs. Robbins was the guest of Mrs.

Combs last week. Mr. Winton of Ypsilanti spent last

Saturday with Mr. Minor White. The many friends of Mr. and Mrs. Burt Bray gave them a very pleasant surprise last Thursday evening, it being the first anniversary of their marriage.

Mr. James H. Webb is building an addition to his barn.

Mr. Watling of Dexter visited Mr. White last Sunday. Mr. and Mrs. Will Fisk are visiting Mr.

and Mrs. Burt Bray. The German measles are prevalent in this vicinity

YPSILANTI TOWN. The Grange Fire Insurance Co. met Sat-

arday and elected C. M. Fellows as secreary in place of C. L. Foster, resigned. The next regular meeting of Ypsilanti Grange will be July 11.

Mrs. D. V. Harris is improving slowly. CHERRY HILL.

The Children's Day exercises given at the church were attended by a large Grace Gill attended the commencement

exercises at Plymouth last week. Mr. Defendeffer of Detroit spent Sunday at E. L Gill's. Minnie Horner closed her school at

Sheldon Saturday with a picnic. A fine program was rendered. Ethel Gunn attended commencement

exercises at the Ypsilanti high school and visited Carrie Lewis. Although a rainy day, there was a good attendance at the L. A. S. held at Mrs. Newton Hueston's. Mrs. E. L. Gill enter-

tains the society next time. Mrs. Martin Schrader has been ill with diphtheria but is now better.

Mr. and Mrs. Frank Minor of Sheldon visited Mr. and Mrs. West Sunday. Mr. and Mrs H J Lewis went to Toledo Saturday for a visit.

List of Letters. Following is a list of letters remaining in the post office, Ypsilanti, Mich., for the week ending June 20, 1903.

SAVED BY BRIGHT REPLY.

Hcw Smart Midshipman Got Himself Out of Scrape.

On board a man-of-war bound to \*\* Pound musingman named wanters. He was a favorite with the officers, and had in him the talent for making and to heave the ship's log to ascertain her speed.

The captain, in company with the officer of the deck, was walking the weather side of the deck conversing when Midshipman Walters came aft to write up the lcg. The barometer, a mercurial one, was hung in the captain's cabin, and Walters, after having read it, helped himself liberally to the captain's sherry on the cabin sideboard. In walking the deck the captain happened to glance down the cabin skylight and saw the midshipman's proceedings. When Walters came up on deck to heave the log the captain addressed him as follows:

"How is the barometer, sir?" Walters saluted and said: "Steadily rising, sir; steadily rising."

The captain then asked: "And how is the decanter, sir?" Walters was taken aback, but with a steady voice replied: "Steadily

falling, sir; steadily falling." This reply was too much for the captain, and, bursting out laughing, he said: "Young man, your bright reply has saved you from punishment; but it is a long way to Frisco, so hereafter I beg of you not to consult the decanter as often as you do the barom-

TROUBLES OF A RACONTEUR.

Always Some Eyewitness to Soil-

Good Story. The late John T. Crisp was a participant in the battle of Westport. He liked to describe the engagement from his point of view, and he never failed to interest his auditors. A few years ago, while seated at a "round table" in a downtown cafe, he gave, according to a friend, free vent to his wonderful imagination, in the presence of Richard Gentry and others who were at the scene of battle at the time it raged the fiercest.

The colonel told of the way his company had charged the enemy, of how the Federalists were put to flight, and of how he himself had been in the forefront of the bloody battle.

Gentry, who was a member of Crisp's company, finally interrupted a beautiful piece of word painting about the horrors of war by saying: "Now, colonel, you know you ran like --- on that day. I was running with you and you kept ahead of me until we were out of range of the Union guns. Yes, sir, you ran, sir; by gad, sir, you retreated, sir, and I retreated with you."

Col. Crisp, so the story goes, calmy looked at Gentry for a moment and then, in his most explosive manner, exclaimed: "I never told a good story in my life that some blanked eyewitness did not

jump up and spoil it."-Kansas City ipling to His Comrade-Poets. Let the lover sing of his lady-That is part of God His plan Let the gentle sing as he feeleth— That also is God to man. That also is God to man.

But for you, my comrades, I order
We shall question from sod to star;

"We shall paint the thing as we see it
For the God of things as they are."

When we strike we shall strike with fire, When we bless we shall bless with joy—With the fire that God He lent us, With the fire that God He lent us,
With the gladness unknowing alloy.
Yet even as each knoweth his weakness,
We shall firestrike only to bless;
And even as each knoweth his sorrow,

We shall gladden that sorrow be less. This have we sworn, my comrades, Wherever we scatter or shift— Iy wild, gentle, true-hearted comrades. Dear comrades, forever adrift. And when our Lord God He shall call us And when our Lord God He shall call us
To answer the orders He made,
We shall fall into rank and salute Him
"Like gentlemen unafrajd."

-T. F. Watson in Pittsburg Gazette

House of Lords Membership.

The British house of lords has long since ceased to be a strictly hereditary body. Over 200 of its 590 members owe their presence to other causes than descent. Quite a number of the hereditary lords are a barred from voting by the fact that they are either minors, undischarged bankrupts or inmates of lunatic asylums. The non-hereditary lords comprise the archbishops and bishops of the Shurch of England and those who have been created peers by Queen Victoria and King Edward for special services ren-

"One More Day!" I have quaffed the wine of life: Why should I drain the glass? I have seen the buds unfold
In their setting of degy grass.
Why watch the flowers droop?
Why wait till the grass is dead?
What more has life to offer When youth and joy have fled?

Yet the coward soul, in fear, Will shrink from the beekoning hand r the boatman's whispeard word As ever he waits on the strand; will drain the bitter dregs, or a ruined life is sta a lifee Barber Knapp in Chicago Inter

Clean and Dirty Milk. From the Farmers' Review: Many

dairymen apparently fail to recog-

nize the fact that when milking and

caring for milk they are handling hu-

hands and dust-laden clothing and without so much as brushing the loose dust and dirt from the cow. Under such conditions much filth must of necessity find its way into the milk. No other food is produced in such filthy surroundings as is frequently the case with milk and no other food will absorb odors so readily and become tainted so quickly as will milk. It is, therefore, doubly important that great care be exercised to have milk produced under the most sanitary conditions possible. One can judge something of the amount of massive iron and steel plates the contamination is in visible form. Milk in the udder of a healthy cow is both pure and sterile, and if it could be drawn and handled without contamination would remain sweet and wholesome for an indefinite length of time. However, bacteria accumulate Hotelheeper Thought It Cheaper and multiply in such places as mud Than Feeing Electrical Company. holes, manure heaps, seams of utenthousand times more bacteria than The landlord who attempted to that which may be obtained by using

THURSDAY, JUNE 25, 1903.

HIGH SCHOOL.

HIGH SCHOOL COMMENCEMENT. Despite the rain the M. E. church was comfortably filled Friday evening by the friends of the graduating class. The platform was prettily decorated. The class filed in to the inspiring strains of an organ march, played by Clair J. Winton, and took their places in the central seats of the church.

Superintendent W. B. Arbaugh presided and Rev. R. K. Wharton offered prayer. The high school choir, under direction of Prof. Arthur Bostick, sang delightfully "The Clang of the Forge," Milton Cook taking the solo.

The first oration, "The Discipline of Failure," was given by Miss Ellen K. Wortley, who clearly brought out the truth that man grows strong by suffering and defeat. The world's history is a record of war and sorrow, each defeat stimulating to further endeavor. Success must pay the price of suffering. Man is never satisfied, but always reaching up and on, and obstacles overcome are stepping-stones to better

Grover C. Thomas thought "The Boss" a much maligned individual. He said people made excuses for the follies and excesses of leaders in other lines of activity, but all unite in attacking the political leader. He distinguished between good and bad bosses, and urged that even a boss should be given credit for the good he

Miss Clara E. Sweet discoursed on "The Sin of Modern Journalism," which she thinks consists in magnifying crime and evil, in invading personal privacy, and in all base things involved in the word "commercialism." She deplored the yellow tendencies of modern journalism.

The ladies chorus sang with much expression the lovely chorus, "Lo! Again 'Tis Evening," after which Miss Grace E. Corazzi gave a warmly eulogistic analysis of the character and purposes of the present Czar of Russia, dwelling particularly pon the peace problem and touching on the present critical conditions in Russia. Clyde B. Gass considered "The Disposition of Wealth," and declared that if only those men who possess a sense of their responsibility to so use their wealth as to result in the greatest good to the greatest number were allowed to have great fortunes the world would soon grow better. He advocated that rich men should use their money to advance the cause of justice and the passage of wise laws.

Miss M. Lucile Hoyt discussed "Co-education." If the aim of the school is to give the child a strong character, will coeducation or segregation be best? She set forth the arguments on both sides and concluded that whichever system prevailed, each person must strive to attain the highest ideals

Miss Donna Riblet and the choir, assisted by the Conservatory orchestra, gave the song "Beautiful May," by McFarren.

Miss E. Grace Crippen dealt with "Literature and Life," concluding that only those books that depict actual human feeling and action will be of permanent value, and that a lover of books, in however restricted a sphere of life, can choose his own friends and counteract the narrowing tendency of daily routine.

Leslie E. Horen gave an interesting historical oration on "The Battle of Lake Erie," showing the vast consequences of the victory and eulogizing Captain Perry. Mr. Horen has the true oratorical spirit. Indeed, all the productions were such as to prove the excellent work done by the

high school. The choir sang the pretty "Fairyland Waltz," and then Superintendent Arbaugh gave a touching and appropriate little farewell to the graduates, paying a warm tribute to Prof. Austin George, and reminding them that now this community would expect them to take their place in its life and to return to the world more of inspiration and help than they have received. He ad vised them to increase the sum of human happiness, not to underestimate the things of the mind, and to remember that make ing a living is a small part of making a

Then the class went forward and received their diplomas from Principal Ross, and took their places in the long and distinguished roll of the Ypsilanti high school alumpi.

Dennison, '87, of Ann Arbor as toastmas-

ter, who referred to this as the time of re-

unions all over the country, and gave en-

tertaining reminiscences of Profs. Shen-

herd, Putnam, Volland and Foote, and in-

troduced Miss Jessie Swaine, '97, to re-

spond to the first toast, "Mistakes." She

spoke of her class motto, "Rowing, not

drifting," and of the buoyant hopefulness

of youth, and the discouraging circum-

stances that call forth the pluck and hero-

ism that needs to be brought to the surface,

and gave bits of good advice to the new

alumni, Lewis L. Forsythe,'00, was called

upon to discuss "Our Alumnae," which he

did in terms not wholly complimentary at

first, but later squared himself with his

fair auditors. Miss Gertrude Breed, '82,

of Ann Arbor spoke of "Promissory Notes."

illustrated by an amusing personal experi-

ence. She told the young classes that they

will find that they must recognize their

obligations. They must be something that

is worthy, do something that is worthy,

and do it at once. She recited also one of

Mrs. Browning's inspiring sonnets. Ray

Macklem, '02, in "One Year After," clev-

erly expressed the present attitude of his

class, and warned the class of '03 that they

too would soon be only one of the links of

the endless chain of alumni. Miss Georgia

Amsden, '00, of Detroit made a very witty

little speech on the topic "Ads and Ad-

ders," cleverly working in some really

good puns. Much to the regret of those

present, Henry M. Utley, '57, of Detroit

was unable to be present. Roy Hoover,

98, however, gave an impromptu talk.

Miss Cora Wilson, '96, a member of the

class that organized the alumni associa-

tion, gave words of wisdom for the benefit

of the new class. Miss Anna M. Cutcheon,

59, spoke wittily, eloquently and with

augurs well for his success in our schools

and earnest little talk, and in closing quot

THE BACCALAUREATE. The baccalaureate address by President ones Sunday evening attracted an im mense audience to Normal Hall, The music for the occasion was furnished by

the Normal choir and was inspiring. President Jones took for his text I Cor, 2-31, "Covet earnestly the best gifts," and supplemented it by Whittier's poem, "The Riches of the Commonwealth." He spoke of the intimate relation the school bears to the church, both dealing with the eternal welfare of the child, and also in this country to the state. Teaching as preaching demands a complete consecration of the whole being-man's knowledge, sympathy, power of initiative, independence of character, and deep devotion to the child-to the work. Teaching cannot be well done by a part of one's personalityit is a very personal act. Beyond technical instruction, there is needful self-instruction, self-training, self-urging, selfdirection, to give a teacher power to get results.

The teacher should do things, not be ontent with the self-complacency caused ov noble resolves alone. A dynamo is use less unless the current is turned on. A teacher leaving school where stronger minds have set his purposes for him, must have resources within himself if his work is to be efficient. He must himself become an individual center of inspiration, a self-active power able to originate plans and carry out purposes.

pathos in turn, of "Our Absent Ones," who she thought, if our eyes could be opened, would be found with their old comrades on this anniversary filled with precious memories. She paid, too, a tribute to Prof. Austin George, and told of the honored careers of many of the older alumni, George J. Burke, '03, spoke entertainingly of the class "Just Landed," and then Dr. Dennison called on Principal-elect Chas. as he combined a witty story with a manly ed the earnest words of Dr. Buckley to the forces at work transforming the world

marks the great teacher. guage of the New Jerusalem; you have teachers can expect by driving children through unintelligent and uninteresting law-abiding, order-loving citizens is in comprehensible.

nobility of human kind, a belief in the presence in the universe of a personal God interested in humanity, and a science of education is possible that will regulate the practice of teaching in even the smallest details of daily work. People are evil in their lives because ignorant of the worth of righteousness. If one really likes evil, it is because he has never seen heaven. It is your duty as a teacher to exemplify the class numbers 35, its colors are red and

with class colors, by sixteen girls: music by Helen D'Ooge, Dee Deubel, Le Roy Danielson, Jessie Childs and Florence Smith; scenes, in costume, from "The Song of the Shirt," by Minnie King; Gone with a handsomer man," by Lydie Campbell, Ernest Rogers and Roy Austin. and "Hiawatha," by Lily Ashdown, Hazel Olds and Norval Ayers; Tennyson's "Dream of Fair Women," by Lucy Drake, Alice Roberts, Nellie Clark, Gratia Camp, Dee Deubel, Carma McMullan and Zada Showers. The class history was cleverly written by Jessie Childs, and an amusing dialogue by Gratia Camp, Edith Burt, Mac Morrison, Donald Comstock and Harry Heath followed. Supt. Arbaugh, with fit-

The grades of the public schools united Friday morning in producing the charm ing operetta "Boy Blue," under the direction of Prof. A. L. Bostick. The affair proved one of the most delightful ever given here. The operetta was so pretty and it was so beautifully sung that the large audience was very enthusiastic There has been a strong demand that the operetta be repeated some time this summer, and this will probably be done. Mr Bostick has earned great credit for his admirable training of the children.

THE STATE NORMAL COLLEGE.

The speaker laid down a theory of edu eation based on the essential worthiness of every being born into the world. Not the anworthy actual but the noble possible gives inspiration. The first offers reaons for reform, the other gives the reformer his enthusiasm. An ideal, a conception of something different from the greatly enjoyed. The class this year numactual, is necessary for the direction of God has made man capable of helping in the world's work, not because He needs help, but because man needs to be permitted to help. The power to see

The child is embodied self-activity on the way to self-direction, and all education should recognize this element of child nature. The teacher should win the wide outlook that will show him how futile is an education unfitted to child nature. How processes to make them self-controlling,

The school needs a strong, courageous, hopeful teacher, who makes his pupils fellow-workers with him in the tasks and triumphs of daily duty. The child, seeing himself a self-active being raised by edu cation to the level of a self-directed being, easily thinks self-activity infinite, self-consciousness without limitation, and selfdirection without possible interference. and lo! he has conceived a personal God, to whom he willingly gives his heart in happy obedience.

Given a practical working belief in the Kingdom of Heaven that is within you.

There is no common-place teaching except that done by a common-place teacher. If one has only to teach that two and two are four, he can show that this truth is akin to the laws by which the planets move in their orbits and morning follows night, and that violation of it involves moral and physical anarchy. The pupil should feel that it is good to be in a world where light is always distinguishable from darkness, good always in contrast with evil. and where order is heaven's first law, and he will feel it if the teacher exemplifies his ideals in his work. There are no simple problems in education. The human soul is of such infinite worth and complexity of organization that any attempt to direct its development requires the highest efforts of the most gifted minds. It is because of the infinite worth of human life in its cultivated aspects that education is worth while. It is only a profound working belief in the eternal verities that makes any science of education possible. It is a privilege to be allowed to develop in the young the possibilities that God has put into them. How can you think of these things without having born in you a holy enthusiasm for your profession and a real passion for teaching?

to its capacity. and the brilliant finale from "Fair Ellen,"

Miss Lorinda Smith. Rev. A. G. Beach offered prayer. gave the audience greeting. She referred to the influence for good the class had felt from their teachers, and of the regret with which the class faced the coming

The class history by John H. Waldron of Waucousta carried the class from its freshman salad days to graduation, referring to their victories in debate and athetic prowess. The brain counts more than brawn with this classs. A tribute was paid to Prof. Ledeman, whose portrait is the class memorial.

My love is like a red, red rose" very acceptably.

Miss Mae Belle Carroll of Negaunee read an excellent class poem, a farewell to the college and class.

Miss Katherine Kelley of Kinde prophe sied what will be the positions and occupations of her schoolmates ten years hence. She told of attending the long-deferred Normal-Northwestern baseball game and. of the class friends she met there in 1913. Miss Pearl Benedict sang "Daffodils" charmingly, and responded to a hearty en-

The class oration by Lee W. Carr, who was a member of this year's victorious debating team, was upon "The Uses of Adversity," and was an able and striking production, somewhat historical in nature, dwelling especially upon the sources of

what makes a man or a government.

The valedictory by Clinton E. Kellogg of Ypsilanti, also of the debating team, dwelt on the debt the class owe to their in-

union with a banquet served in the Atheneum room Tuesday afternoon. Covers were laid for 25. Prof. J. S. Lathers presided. General Fred W. Green was called away on business, so no formal program of toasts was followed. The class roll was called and many were located in this way. Of the 167, only four are known to be dead. Those present were J. S. Lathers. Dr. and Mrs. T. W. Paton, Marna Osband, Mrs. F. W. Green, Bertha Buell, W. D Cramer, Grace George, Ypsilanti; Dr. L. J. Tuttle, Greenland; Dr. and Mrs. T. S. Langford, Lillian Eadus, Jackson; Mr. and Mrs. E. H. Ryder, Ann Arbor; Maude C Hathaway, Decatur, Ind.; Katherine Harris, Port Huron; Berthena Marshall, Mo renci; T. W. Sattler, Grass Lake; F. J Harrington, Jonesville; Martie McFetridge Bonce, Adrian; Sue Kelb Hatch,

Commencement morning offered ideal weather, and Normal Hall was early filled

The program opened with an organ solo by Rex Buell and a chorus, "O Gladsome Light," by the Normal choir. Other musical numbers were Gounod's "Ring Out. Wild Bells," by the choir, "Bonnie Sweet Bessle," by the Conservatory Lady Quartet, with Miss Eva Chase and Fred Ellis as so loists. The music is always a welcome

part of the exercises. The address by Hon. N. C. Shaeffer, for ten years past state superintendent of public instruction in Pennsylvania, was a very and black. The program opened with the practical one, tinged with humor and filled with striking figures and a novel view of the theme "The Value of an Education." He spoke of the craze the average boy gets Miss Carol M. Holt of Grand Rapids to leave school to earn something, and advised parents to give the boy a taste of the hard work of money-getting, but to confine this work to out-of-school hours. Keep the boy in school and there teach him the value of education in increasing his earning power. The average untrained laborer earns \$1.50 a day; in forty years his earnings are \$18,000; the average college graduate earns at least \$1000 a year, which in forty years reaches \$40,000, a good return on the investment of a few years more of school work. Massachusetts give its people an average of seven years' schooling. The Conservatory Ladies' Quartet sang and the other states but four, yet in that state the average earning power is 33 cents a day more than in the rest of the United States, and this excess amounts in one year to \$250,000,000—a good return for the \$10,-000,000 yearly school cost in the state. Dr Schaeffer also took up the higher joys and benefits to be gained by education and spoke of the advantage the self-denial and hard work often required to get a college education is to the one who has such an experience. He made a fine impression upon his audience.

President J. M. Munson then presented the senior memorial portrait of Prof. August Lodeman, and Wm. Campbell, to whose generosity the procuring of the portrait was largely due, presented the beautiful portrait of Miss Abigail C. Rogers, the first preceptress. President Jones accepted the portraits. Diplomas were presented to 303

Dr. Allen.

THE DINNER.

The commencement dinner was a very happy occasion. Over 300 alumni sat down to the flower-bedecked and sumptuously laden tables and feasted with merriment and vivacity. The happy spirit that has characterized the commencement crowds this year augurs well for the future of the college. There has been a loyal, hearty feeling of good will expressed that is something unusual of late years, and cordiality that has been delightful. President Jones proved a capable toast-

master. Prof. Delos Fall was the first speaker, "What of the Night?" was his theme, and he praised the legislature for passing his rural high school and county normal training school laws, which he thinks will revolutionize Michigan education. Dr. N. C. Shaeffer spoke on "Normal Schools as a Factor in Education," and paid a high tribute to the rare combination of scholarship and intellectual spirit with professional, normal spirit he had found in this school. He also paid a graceful tribute to President Angell, who responded to the next toast, "Higher Education in Michigan," dwelling upon the unity of the Michigan educational system in which every school, from the rural school to the university, is one in aim and interest, and upon the fact that in Europe and this country the higher education schools have preceded the common schools, and that the latter could not have come into existence but for the work of men from the colleges.

Dr. Daniel Putnam spoke of "The Normal in Retrospect" in his happiest vein. He spoke of the fact that the Normal has had only five preceptresses in all its history, all women of marked character, and urged that the college to-day greatly needs a wise, noble and sympathetic woman who may care for the interests of the girls, advising with a touch of authority back of the advice, in the many problems they have to meet. He also suggested that students in the school from 1867-81 should procure a portrait of Miss Ruth Hoppin to be presented next year. He also queried whether in this day there is the intense moral earnestness and deep religious conviction which characterized the founders of education in Michigan.

Superintendent Walter F. Lewis, '88, of Port Huron responded cordially for "The Alumni;" George K. Wilson, '03, wittily for "The Normal Boy;" Miss Aleida J. Pieters, '03, earnestly for "The Normal Girl," and Miss Nettie Yonkers for "The Class of '03," Miss Eleanor Hazzard Peocock was called on for a song and gave a charming rendering of "Wynken, Blynken and Nod.'

Thus closed the most enjoyable alumni reunion the Normal has seen in years.

THE TRAINING SCHOOL,

Friday morning at the Normal training school the following program was rendered: Music, "America," the school: historical pictures, fifth grade; music, "The Wedding of the Birds," Mrs. Allen Frazer, second grade; scene from Tennyson's 'Princess," seventh and eighth grades music, "Way down upon de Suwanee Ribber," seventh grade; selection by kindergarten band; action play, "Vacation," first grade; "Dance of the Daisies," second grade; military drill, boys from seventh grade; music, "The Sparrow's Bath," fifth grade; "The Lost Sheep," third grade; Listening to Gossip," seventh grade; The Bargain of the Months," fourth and sixth grades; music, "Vacation Song," the school.

The exercises were very well rendered and much enjoyed by a large audience.

It's a mistake to imagine that itching iles can't be cured; a mistake to suffer a lay longer than you can help. Doan's lintment brings instant relief and permanent cure. At any drug store, 50 cents.

The statement has been made that prussic acid was made from peach stones. This is altogether a mistake, for, although under certain conditions a trace of the main principle of the deadly poison can be found in peach stones, there is not sufficient to produce the acid without other essential ingredients. Indeed, without the process of fermentation there is no evidence at all of prussic acid in the stones.—Ex
